## Moisturizing Body Salve

### Ingredients

1/2 cup melted pure beeswax (net weight 4 oz. solid beeswax) or two unscented pure beeswax votive candles  
1 1/4 cup pure olive oil  
10 drops rose geranium essential oil\*  
Heatproof glass jar with wide mouth, like a Ball canning jar

\* Atlantic Spice Co. rose geranium essential oil was used in the sample project.

### Directions

1. Place the beeswax in the bowl and microwave for approx. 3 minutes on high heat. Stir, and continue to heat another 3 minutes.
2. When the beeswax is completely melted, pour the olive oil into the bowl. Note: the beeswax will harden into little pieces.
3. Reheat in the microwave for 1 minute, until the beeswax and olive oil are completely melted. Stir thoroughly. Note: Heat the beeswax and olive oil mixture just enough to melt the ingredients. Do not overheat. The mixture may burn and become flammable under extreme heat.

Cruelty Free  
Tested on good people,  
not good animals.

4. Add the essential oil and stir again.

5. Pour the warm mixture into the jar and allow it to cool completely.  
Note: The mixture will thicken into a soft salve when completely cooled.

### **Care for the salve**

Cap the salve tightly when not in use and store it at room temperature out of sunlight. Your product will last approximately six months.

### **Variations**

You may substitute a double boiler for the microwave. Just slowly heat the mixture on the stove, gradually increasing from low temperature to high.
