**CLOSE WINDOW**

## **Cleaning Tips**

### **Oily Bottles**

To clean the inside of an oily bottle, add two tablespoons of ammonia and fill with cold water. Close top, shake well, drain, and rinse several times with soap and water.

### **Tarnished Silver**

Make a paste of salt and water. Scrub with a soft cloth and rinse.

### **Tarnished Copper**

Add one tablespoon of salt to one lemon half and scrub. Rinse off.

## ***Stain Remedies***

### **Ink Removal**

Rub stain with milk, rinse, and wash.

### **Red Wine Stains**

Add stained fabric to a solution of 1/4 milk to 3/4 water. Bring to a boil and simmer for three to four minutes, or until stain is gone. Wash as usual.

### **Blood Stains**

Scrub fresh stains with cold water and detergent. Keep rinsing and scrubbing until removed. On old blood stains add a few drops of diluted ammonia on the stain and then wash. Only do this on washable

fabrics.

### **Coffee or Tea**

Stretch and fasten stained fabric over bowl. Pour hot water over stain. Only do this on washable fabrics.

### **Chocolate**

Soak in cold water for 45 minutes or more. Scrub stain with detergent, rinse, and wash in cold water. Only do this on washable fabrics.
